Pedro Enrique Fleita Almira

Las Tunas, Cuba · https://www.linkedin.com/in/pedro-enrique-fleita-almira/ · +5354796494 · penrrique07@gmail.com

Computer Science Engineer with over 10 years of experience in web development, SEO, and social media management. Specialist in WordPress and PHP with proven ability to modernize legacy websites and improve organic search positioning. I have led the digital transformation of media outlets and worked as a freelancer for international clients (both individuals and agencies). I aim to contribute value in an innovative environment where I can combine my technical and strategic skills.

PROFESSIONAL EXPERIENCE

Tiempo21 **Las Tunas, Cuba**
Web Development *Sept 2010–Present*

- Modernized the institutional website by migrating from an outdated platform to WordPress, reducing load time by 40% and enhancing user experience.
- Implemented on-page and off-page SEO strategies that positioned the site among the top 5 Google results for local news, increasing organic traffic by 150% in 2 years.
- Designed and executed a social media content plan (Facebook, Twitter) that boosted engagement by 200% and doubled followers in 18 months.
- Managed hosting and site security, achieving 99.9% uptime.

Prodev Solutions **Miami, USA**
Web Development *Jul 2016–Aug 2023*

- Developed over 9 custom websites for clients across various sectors (e-commerce, professional services, blogs) using WordPress, PHP, and Bootstrap.
- Optimized site performance and security, reducing hacking incidents by 90% through updates and best practices.

BTech **CDMX, México**
Web Development *Oct 2023–Sep 2024*

- Completely redesigned the corporate website using WordPress, improving load speed by 60%.
- Implemented a comprehensive SEO strategy that placed the company on the first page of Google for 10 key industry keywords.
- Created and managed LinkedIn and Twitter profiles, increasing brand visibility and generating 20% more business inquiries.
